Professional Summary

Front-End Developer | MERN Stack Engineer skilled in React.js, Next.js, JavaScript (ES6+), Tailwind CSS, and RESTful APIs. Proficient in building responsive, scalable, and high-performance web applications. Strong experience in collaborating with cross-functional teams, integrating APIs, and delivering secure, user-friendly digital solutions

---

Technical Skills

- Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux
- Backend: Node.js, Express.js, REST APIs
- Databases: MongoDB, MySQL, PostgreSQL
- Tools and Others : Git, GitHub, Postman, Jira, Trello, VS Code

---

Experience / Projects

AI-Powered LMS SaaS Platform

- Built a subscription-based LMS SaaS application using Next.js, Tailwind CSS, ShadCn, Supabase (auth, database, real-time), and Stripe integration
- Enabled live interactive sessions with real-time messaging and quiz modules, enhancing learner engagement
- Embedded an AI-powered teaching assistant (voice/chat) to support learners, leveraging AI APIs.
- mplemented secure user authentication, billing management, and monitoring via Sentry

ShopSphere – Full-Stack E-Commerce Platform

- React.js, Tailwind CSS, Redux Toolkit, Node.js, Stripe, Elasticsearch, Socket.io
- Built a responsive e-commerce web app with modern UI and optimized performance
- Implemented product search with Elasticsearch and core features like cart, wishlist, and order tracking.
- .Integrated Stripe for secure payments and Socket.io for real-time inventory updates.
- Designed role-based dashboards for Admins, Vendors, and Customers.

Project Sync (FYP)

- Project Sync is a full-stack project management platform.
- Designed to streamline collaboration between managers and developers.
- Backend: Built with Node.js/Express:
  - Manages users, teams, projects, tasks, bugs, and invitations.
- Frontend: Developed using React:
  - Offers an intuitive interface for dashboards.
  - Provides role-based access control.
- Enables real-time project tracking.
- Supports:
  - Client management
  - Team coordination
  - Efficient bug/task assignment
- Aims to enhance productivity and transparency in software development projects.

Education

Bachelor in Software Engineering (BS - 4 Years)
Lahore Garrison University (LGU)
